

Henry Stevens No. 3

106.428

p 57 Do you suppose at this particular point the idea would have occurred to him of the murders having possibly been committed elsewhere?

p 67 Very strong point; no telephone at the house. In order for Mrs. Hall to have gotten word to him she would have had to telephone to someone else and had the message carried over.

p 70 He says "whether it would be all right to bring a car to have something done." Would he not have said the car, the Ford being the only one he drove.

p 71 Long trips - would he go in the Ford? If not would Mrs. Stevens do all the driving?

p 71 and page 70 Is the date 1924 correct?
